# MARYLAND STATE DEPARTMENT OF EDUCATION Office of Child Care HEALTH INVENTORY

#### Information and Instructions for Parents/Guardians

#### **REQUIRED INFORMATION**

The following information is required prior to a child attending a Maryland State Department of Education licensed, registered or approved child care or nursery school:

- A physical examination by a physician or certified nurse practitioner completed no more than twelve months prior to attending child care. A Physical Examination form designated by the Maryland State Department of Education and the Department of Health and Mental Hygiene shall be used to meet this requirement (See COMAR 13A.15.03.02, 13A.16.03.02 and 13A.17.03.02).
- Evidence of immunizations. A Maryland Immunization Certification form for newly enrolling children may be obtained from the local health department or from school personnel. The immunization certification form (DHMH 896) or a printed or a computer generated immunization record form and the required immunizations must be completed before a child may attend. This form can be found at:

http://earlychildhood.marylandpublicschools.org/system/files/filedepot/3/maryland\_immunization\_certification\_form\_dhmh\_896

**Evidence of Blood-Lead Testing for children living in designated at risk areas**. The blood-lead testing certificate (DHMH 4620) (or another written document signed by a Health Care Practitioner) shall be used to meet this requirement. This form can be found at: <u>http://earlychildhood.marylandpublicschools.org/system/files/filedepot/3/dhmh\_4620\_bloodleadtestingcertificate\_2016.pdf</u>

#### **EXEMPTIONS**

Exemptions from a physical examination, immunizations and Blood-Lead testing are permitted if the family has an objection based on their religious beliefs and practices. The Blood-Lead certificate must be signed by a Health Care Practitioner stating a questionnaire was done.

Children may also be exempted from immunization requirements if a physician, nurse practitioner or health department official certifies that there is a medical reason for the child not to receive a vaccine.

The health information on this form will be available only to those health and child care provider or child care personnel who have a legitimate care responsibility for your child.

#### **INSTRUCTIONS**

Please complete Part I of this Physical Examination form. Part II must be completed by a physician or nurse practitioner, or a copy of your child's physical examination must be attached to this form.

If your child requires medication to be administered during child care hours, you must have the physician complete a Medication Authorization Form (OCC 1216) for each medication. The Medication Authorization Form can be obtained at

http://earlychildhood.marylandpublicschools.org/system/files/filedepot/3/occ1216-medicationadministrationauthorization.pdf

If you do not have access to a physician or nurse practitioner or if your child requires an individualized health care plan, contact your local Health Department.

## PART I - HEALTH ASSESSMENT

## MARYLAND DEPARTMENT OF HEALTH BLOOD LEAD TESTING CERTIFICATE

For a copy of this form in another language, please contact the MDH Environmental Health Helpline at (866) 703-3266.

# How To Use This Form

# → A health care provider may provide the parent/guardian with a copy of the child's blood lead testing results from ImmuNet as an alternative to completing this form (COMAR 10.11.04.05(B)).

Maryland requires all children to be tested at the 12 and 24 month well-child visits (at 12-14 and 24-26 months old respectively), and both test results should be included on this form (see COMAR 10.11.04). If the test at the 12-month visit was missed, then the results of the test after 24 months of age is sufficient. A child who was not tested at 12 or 24 months should be tested as early as possible.

A parent/guardian and a child's health care provider should complete this form when enrolling a child in child care, prekindergarten, kindergarten, or first grade. Completed forms should be submitted by the parent/guardian to the Administrator of a licensed child care, public pre-kindergarten, kindergarten, or first grade program prior to entry. The child's health care provider may record the test dates and results directly on this form and certify them by signing or stamping the signature sections. A school health professional or designee may transcribe onto this form and certify test dates from any other record that has the authentication of a medical provider, health department, or school. All forms are kept on file with the child's school health record.

# Frequently Asked Questions

### 1. Who should be tested for lead?

All children in Maryland should be tested for lead poisoning at 12 and 24 months of age.

### 2. What is the blood lead reference value, and how is it interpreted?

Maryland follows the <u>CDC blood lead reference value</u>, which is 3.5 micrograms per deciliter ( $\mu$ g/dL). However, there is no safe level of lead in children.

### 3. If a capillary test (finger prick or heel prick) shows elevated blood lead levels, is a confirmatory test required?

Yes, if a capillary test shows a blood lead level of  $\geq 3.5 \ \mu g/dL$ , a confirmatory venous sample (blood from a vein) is needed. The higher the blood lead level is on the initial capillary test, the more urgent it is to get a confirmatory venous sample. See <u>Table 1</u> (CDC) for the recommended schedule.

# 4. What kind of follow-up or case management is required if a child has a blood lead level above the CDC blood lead reference value?

Providers should refer to the CDC's Recommended Actions Based on Blood Lead Level (https://www.cdc.gov/nceh/lead/advisory/acclpp/actions-blls.htm).

### 5. What programs or resources are available to families with a child with lead exposure?

Maryland and local jurisdictions have programs for families with a child exposed to lead:

- Maryland Home Visiting Services for Children with Lead Poisoning
- Maryland Healthy Homes for Healthy Kids no-cost program to remove lead from homes

For more information about these and other programs, call the Environmental Health Helpline at (866) 703-3266 or visit: <u>https://health.maryland.gov/phpa/OEHFP/EH/Pages/Lead.aspx</u>.

Maryland Department of the Environment Center for Childhood Lead Poisoning Prevention: <u>https://mde.maryland.gov/programs/LAND/LeadPoisoningPrevention/Pages/index.aspx</u>

Families can also contact the Mid-Atlantic Center for Children's Health & the Environment Pediatric Environmental Health Specialty Unit – Villanova University, Washington, DC.
